

## Small air blow gun

A handy, small blow gun with activation via the gun tip. Air flow adjustable through the operating pressure.

Stock No	PRICE
2102130	£10.30

**NEW**

## Combined vacuum and blow gun

The innovative Luna cleaner gun is one tool with two functions, suction and blowing. Ideal for cleaning around machines in your work shop as well as use as a vacuum cleaner. Instead of blowing dust around you can first suck most of it up and just blow away any residue which is hard to suck. One hand operation. Press firmly and you start the suction function, depress the trigger further and the cleaner gun starts blowing. The "one time use dust bag" is covered by the recoil hose which is included as standard. The small weight (595gm) makes it comfortable to use by one hand, dimensions 327 x 114 x 53mm. Suction 600 l/min and blowing 300 l/min at 8 bar

Stock no	204060107
Connection thread	1/4
Air consumption l/min	350
Air consumption cfm	12.4
Total length mm	340
